

## Map to Folk Art Center Back Parking

Get on 240E or 240W in Asheville (off I-26 coming from Brevard/Hendersonville) or I40W (coming from Black Mountain) and take Exit 7, Tunnel Road, Hiway 70 East. Go East on 70 until you get to a large intersection (See the A above) with Ingles on your right, and **Riceville Road** on your left. **Turn left onto Riceville Road**. You will see the VA facilities on your right along Riceville Road. Go 0.5 miles, and see the Laurel Retirement facility on your right. Immediately after that, you will see the sign for the Folk Art Center Service Entrance with an arrow to your right.

Turn right at that sign (there is also a "Riceville Fire District" sign). Drive up to the parking lot. Please park only along to perimeter street and within the spaces that are marked with long white lines. The immediate spaces immediately adjacent to the rear doors of the Center are for staff only. Personnel with large instruments can drive up to the doors, unload, then go back and park.

If you find the back lot is full, you can go back to Riceville Road turn left, then go into another tunnel lot that is adjacent to the Laurel Retirement Center. This road is between the Laurel Rd Center and the Folk Art Service entrance. It goes on back behind the Laurel Center and doglegs slight into another lot.
